

## Jaarverslag Stichting Wanda Foundation

Construction of Dia Instituut Vocational School (ITI) and the Children's Home in Kenema

The vocational school is being built in the Eastern Provenance of Sierra Leone [Kailahun District].

The DIA Institute for Technical Innovation [The DIA vocational school] has 12 classrooms, teacher's room, director's room [2x], a consultation room, IT room for the server and 8 toilets

The Children's Home in Kenema is being built for children without parents and for girls who have been sexually abused.

## Note:

1. All funds are intended for activities in Sierra Leone.

2. Upper floor - Dia Vocational School .

The entire top floor was poured within three days. Concrete was poured by four separate groups [skilled professional masons]. Other local workers, including women and youth, were responsible for the water supply to the concrete mixers. They worked all night long.

3. Children's home

Construction of a fence: is a mandatory security measure to protect the orphans and newcomers. A machine has been hired for this. The machine also did its job in construction so that materials and the like could easily get onto the site and clear the site within a week, making the transportation of materials to the site and fencing structure easier and faster. The fence is at a good height. A well has also been dug

The expenditure in Sierra Leone consisted of a transfer of € 87,129.00 to NGOPEE and € 13,701.00 was spent in the Netherlands for all kinds of materials for the NGOPEE foundation paid from WANDA Foundation.

All materials are purchased in the Netherlands to avoid delays and to guarantee good quality.

4. Time and talent invested by the project team for the execution of the project.

5. The number of volunteer hours

6. As a result, the balance of the Wanda Foundation came to Euro 10,462.27
